

SUMMER SCHOOLS

There is a directory of English-language schools that offer courses to young people. These are approved by the British Council, and usually offer family accommodation and some excursions.

www.englishinbritain.co.uk

Then there are some schools that offer language courses and more activities. These are residential, usually in school buildings, or large houses:-

Then there are 'holiday camps' that are not aimed at foreigners, although some do offer language options. These are usually more just for fun! - activities include lots of sports, or other themes, like dancing or theatre. Unlikely to be actually camping, but might be in chalets. The student would have to be quite confident in English to enjoy these:-
